DETAILED ACTION

The following is a final office action in application # 10/510,242.

Applicants' remarks and amendments submitted 9/5/08 are acknowledged.

Rejection of claims 1, 2, 4, 6-10, 12,13, 15, 17, 24 and 25 under 35 USC 102(b) over Bender et al is withdrawn in view of amendments to the claims.

Rejection of claims 18 and 19 under 35USC 112 is withdrawn in view of applicants amendments to the claims

Rejection of claims 1-10, 12-19, 24 and 25 is withdrawn in view of applicants amendments.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of

the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1, 3-10, 12, 13 and 25-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Palajma et al. (SU 1646258, title, CAPLUS abstract and table on page 5, certified translation will follow).

Scope of prior art

Palajma et al disclose the following compound (compound 8, page 5 of the Russian patent text):

The above compound is described as a substrate group for peptide analysis (title).

Difference between prior art and instant claims

The difference between the compound of Palajma et al. and the compound of the instant claims (see structure below) is in the positioning of the substituents in on the naphthalene ring system.

Obviousness

"Compounds which differ only in the placement of substituents in a ring is not patentable absent unexpected results". In re Jones, 162 F.2d 638, 74 USPQ 152 (CCPA 1947).

Since the compound in the art and the compound of the instant claims are ring isomers, one skilled in the art would expect them to have similar biological properties.

The limitations directed to the intended use of the compounds are not given patentable weight. It is well settled that the intended use of a composition or product (e.g. as a cosmetic composition) will not further limit claims drawn to a composition or product, so long as the prior art discloses the same composition comprising the same ingredients in an effective amount as instantly claimed. See, e.g., *Ex parte Masham*, 2 USPQ2d, 1647.

Objections

Claims 17, 18 and 19 are objected to as being dependent on a rejected base claim.

Allowed claims

Claim 11 is allowed.

Conclusion

Claims 1, 3-13, 17-23 and 25-33 are pending

Claims 20-23 are withdrawn

Claims 1, 3-10, 12, 13 and 25-33 are rejected

Claims 17, 18 and 19 are objected to

Claim 11 is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
